To whom it may concern:

This amendment corrects the previous amendment where, due to a glitch in our PAC software, the filing inserted incorrect election data. The previous filing (amendment 1) accidentally inserted "primary 2002" as the election period for which the disbursements were made. The disbursements in question should have been designated for primary 2006, therefore, this filing (amendment 2) for the March monthly reflects the actual period in which the disbursements were made.
